For Sailing clubs, Sailing schools and other associated sailing training centres this is an ideal opportunity to purchase 2 reliable, versatile and excellent dinghies at a low cost.

We have just seen the first 2 boats leave the workshop, sail numbers 10336 and 10337, delivered to Yeadon Sailing Club, where they will be used as training boats by the membership to hone their skills, encourage youngsters and attract new members to the club. It's an excellent and innovative "Come and Try" session, please visit www.yeadonsailingclub.co.uk for more information.

Having been an established class for over 60 years, the Heron has lost none of its character and remains a ideal dinghy for the inexperienced sailor or young sailor and we are now seeing an increase in the number of slightly more mature sailors who wish to get out on the water but require that extra bit of stability which the Heron offers in abundance.

Grab yourselves a bargain and get in touch to discuss this fantastic offer further.
